

5 FACTS

Penguins

1

BIG OR SMALL

The largest penguin species is the emperor penguin, and the smallest is the little blue

FLIGHTLESS

Penguins are the only species of seabird that can't fly, instead they are great swimmers

2

3

RULE BREAKER

The Galapagos penguin is the only species that lives in the Northern Hemisphere

WADDLES

A group of penguins on land can be called a waddle, named after how they walk

4

ROMANTICS

Many male penguins will give female penguins rocks to impress them
