

# 5 FACTS *Whales*

# 1

## BALEEN OR TEETH

All whales can be divided into two groups - baleen whales and toothed whales

## ALL OCEANS

Whales are found in all oceans, from the Arctic all the way down to the Antarctic

# 2

# 3

## ECHOLOCATION

Just like dolphins, toothed whales can use echolocation to find their food

## BIGGEST OF ALL

Blue whales are the biggest animal to have ever lived on the planet!

# 4

# 5

## BIG BREACHING

Many whales are famous for their huge jumps out of the water
