

# 5 FACTS ABOUT

## *Fish*

# 1

### FINS AND GILLS

All fish have gills to breathe underwater, and fins for swimming and balance

### COLD BLOODED

Most fish are cold blooded, relying on the environment to heat them up

# 2

### GROUPS

Fish can be sorted into three groups: bony, cartilaginous and jawless

# 3

### BIG TO SMALL

Whale sharks are the biggest, and dwarf pygmy gobys are the smallest

# 4

### SLOW TO FAST

Seahorses are the slowest fish and sailfish are the fastest
